## ASGE 1/2 DAY WORKSHOP FRIDAY, PRE-DDW EXAMPLE

**SESSION TITLE**: Benign Anorectal Disease

**SESSION TYPE**: 1/2 day Workshop (Friday, Pre-DDW)

**SESSION DURATION:** 300 minutes | 5 hours | ½ day

**DESCRIPTION:** Benign anorectal disease management is in the scope of practice of a gastroenterologist. These disorders include hemorrhoids, analif ssures, pruritus and rectal dyssynergia. These disorders are easy to diagnose and treat in the of ice set ing. There is variability in learning, training, and incorporating this into the GI practice set ing. The good news, it is easy to learn and provide a more comprehensive service to your patients with anorectal complaints. Most patients with these ailments do not need surgical intervention and therefore should be managed by the gastroenterologist. This workshop will help you start your own anorectal clinic.

**Moderator 1:** Dr. XXX

**SESSION LEARNING OBJECTIVES 1:** Describe steps needed to perform a thorough examinat on of the anorectum in the of ce for an accurate diagnosis and assess the severity of the disease. (comprehension)

**SESSION LEARNING OBJECTIVES 2** Ident fy how to treat hemorrhoid disease in the of ce and be aware of possible complications, knowing when to refer to your surgeon. (knowledge)

**SESSION LEARNING OBJECTIVES 3:** Compare and Contrast case studies, correctly diagnosing rectal dyssynergia and when to order anorectal manometry. (analysis)

**SESSION LEARNING OBJECTIVES 4:** Write steps needed on how to start your own anorectal clinic, incorporating this as part of your ongoing clinical of erings. (application)
